

## Magnification Apps

If the screen magnification tools included with your Android or Apple device are not adequate, there are a number of apps you can download.

**'Magnifying Glass with Light'** is a free app designed for low vision users. It lets you magnify text or images up to ten times their natural size.

This app is available on Apple devices. To download the **Magnifying Glass with Light** app on your **iphone** or **ipad**, follow these steps:

1. Go to the App Store
2. Search for **'Magnifying Glass with Light'**
3. Select 'Install' to download the app

**'HumanWare explore Magnifier'** is a free app that turns your phone or tablet into a digital magnifier. You can also use your phone's light to increase brightness for better viewing.

This app is available on Android devices. To download the **HumanWare explore Magnifier** app on **Android** phones or tablets, follow these steps:

1. Go to the App Store
2. Search for **'HumanWare explore Magnifier'**

3. Select 'Install' to download the app

**'Magnifying Glass + Flashlight'** is a free app that turns your phone or tablet into a functional and easy to use digital magnifier.

This app is available on Android devices. To download the **Magnifying Glass + Flashlight** app on **Android** phones or tablets, follow these steps:

1. Go to the App Store
2. Search for **'Magnifying Glass + Flashlight'**
3. Select 'Install' to download the app

**'Brighter and Bigger'** is a free app that acts as reading glasses for people who have difficulty reading fine print and focusing on nearby objects.

This app magnifies up to X20 and makes text / images brighter and clearer.

This app is available on Apple and Android devices. To download the **Brighter and Bigger** app to your device, follow these steps:

1. Go to the Google Play or App Store
2. Search for **'Brighter and Bigger'**
3. Select 'Install' to download the app
