Setting Alexa up for phone calls

To set up Alexa for telephone calls, follow these steps:

1. Open the Alexa app

2. Press "More", bottom right-hand corner

3. Select "Communicate"

4. Press "Call" button (picture of a phone)

5. Allow access to contacts? Press "Yes" then "Allow" on the pop-up

6. Enter verification code and touch continue

7. Ask Alexa to make a call – say "Alexa call Michael"

8. You can only call people with the Alexa app on their phone or those with an Alexa device if they have also followed the above steps 1-6.
